

Better Buses for CA

Join us in identifying solutions to speed-up bus operations in CA

Have You Heard About The Better Buses for CA Innovation Challenge?

This Challenge asks for your help in proposing innovative solutions that would improve transit speeds and reliability to commuters. Visit the Challenge to check [transit speed maps](#), to find hotspots or low speeds, and use additional resources and your professional expertise to brainstorm innovative ideas for speeding up transit- whether it's a segment as short as a block or as long as several miles of arterial roadway.

Within the Challenge you can submit ideas, browse ideas suggested by others, make comments on submissions sharing your expertise and aid in their development, and show your support for a submission by voting or liking the submission. Visit [Better Buses for CA](#) to engage and share your ideas to speed up transit.
